

The Orlando Institute

Equipping Leaders to Disciple the Nations

Our goal is to equip leaders to build spiritual movements. To do this we have created two parts. The first part is the ministry training. The second part is biblical training.

The goals of ministry training are to help the leader: 1) know the skills of personal ministry so they can be applied in all personal and ministry issues, 2) think in biblical terms about ministry and cultural issues, and 3) gain a deeper commitment to living in submission to God's Word and following him.

To accomplish these goals we teach four classes:

- Evangelism
- Discipleship
- Leading Groups
- Leading Spiritual Movements

Each class has 23 hours of content and 45 hours of homework or personal application. This set of classes can be rearranged to fit various schedules.

The attitudes of the teacher and the students are very important. You are studying God's Word and deepening your commitment to live biblically in a way which is usually never duplicated. Seek the Lord's blessing in every class session.

The completion of all four classes entitles a person to a *Great Commission Training Center* Certificate. We recommend that all pastors and ministry leaders find some way to get this training. It will provide a knowledge and ability to minister from the Bible that cannot be done with ministry skills alone.

May God bless your efforts.

Sincerely,

Stephen M. Clinton

President
